Southwire™

4" SQUARE SPLIT EXTENSION RINGS

1-1/2" AND 2-1/8" DEEP - DRAWN WITH CONDUIT KNOCKOUTS

FEATURES

- Combination Phillips/Slotted screw heads
- Two piece split design

APPLICATIONS

- 4" square extension rings are added to junction boxes to increase wiring capacity and provide access for additional conduit runs and electrical wire
- Split design allows for greater flexibility. There is no need to disconnect wiring already in place when adding a ring. Also allows easier access to the back of the box when pulling wire.

STANDARD MATERIAL

- Galvanized steel

CERTIFICATIONS

- UL Listed

53151-1/2SLP

LISTED

53151-SSPL
