TAPPAN™
ACCESS CONTROL CABLE

Southwire's Tappan™ Access Control Cables are factory assembled bundles for multi-function access control doors. Cables for card reader, lock, door contact, and request to exit (REX) devices, are provided in one cable. Installations are simplified and quicker than when four separate common cables are used. Individual component cables are color coded and printed with their design function, for fastest field identification and termination.

APPLICATIONS:

• Multi-Function Access Control Doors

FEATURES & OPTIONS:

• Pull one cable rather than four
• Components are identified; speeds termination
• Special options, alternate configurations
• Jacketed and Unjacketed designs
• Plenum and Riser rated styles

CONSTRUCTION:

• Card Reader; 3pr. Shielded
• Lock Power; 4/C Unshielded or Shielded
• Door Contact; 2/C Unshielded or Shielded
• Request Exit/Spare; 4/C Unshielded or Shielded

• 4 Jacketed Cables, with overall Jacket, or without
• Stranded bare copper conductors, color coded insulations
• Individual component jackets, printed and color coded per function
