

Heavy-duty step drill bits for fast, clean drilling of holes in metals, wood, and plastic.

TRI-LOBE
shank reduced
slippage and
firm grip in the
chuck

SPLIT POINT
self-starting tip
requires no
pilot hole and
penetrates faster

DOUBLE FLUTE
design for a true round
hole every time

LASER ETCHED
sizes for easy identification

- Ideal for drilling through steel, plastic, wood, aluminum, fiberglass and laminates
- Split point self-starting tip requires no pilot hole and penetrates faster
- Tri-lobe shank for firm grip in drill chuck
- Size laser etched on each step
