

B-107 OFFSET TEETH BLADE

The Seatek™ B-107 is a heavy-duty, universal blade that can be used on all Roto-Flex™ tools. It cuts through aluminum armor clad with minimal effort. It can also cut through steel armor on 1/2" and larger trade size flex. Need a backup blade? This is a great replacement blade for aluminum casing.

Perfect for the electrician. Proudly made in the USA.

USED TO CUT ALUMINUM CASING

OFFSET TEETH TO PREVENT CLOGGING

FOR USE WITH ALL ROTO-FLEX™ MODELS

NOT FOR USE WITH THE RS-101AC
