# Duplex 600V Secondary UD HI-SCORE 

Aluminum Conductors. Ruggedized XLP Insulation. Provides Superior Mechanical Protection.

## APPLICATIONS

Used for secondary distribution and underground service at 600 volts or less, either direct burial or in ducts. Especially suited for applications requiring superior resistance to mechanical damage. Rated $90^{\circ} \mathrm{C}$ continuous operation, $130^{\circ} \mathrm{C}$ emergency overload and short circuit $250^{\circ} \mathrm{C}$.

## SPECIFICATIONS

HI-SCORE duplex 600 volt secondary UD cable meets or exceeds the following applicable ASTM specifications:

- B-231 Aluminum 1350 Conductors, Concentric-Lay-Stranded.
- B-609 Aluminum 1350 Round Wire, Annealed and Intermidiate Tempers, for Electrical Purposes.
- B-786 19 Wire Combination Unilay-Stranded Aluminum Conductors for Subsequent Insulation.
- B-901 Compressed Round Stranded Aluminum Conductors Using Single Input Wire.

HI-SCORE duplex 600 volt secondary UD cable insulation meets or exceeds all grade and type requirements of ICEA S-81-570 and UL Standard 854 for Type USE-2.

## CONSTRUCTION

Conductors are stranded, compressed $1350-\mathrm{H} 16 / \mathrm{H} 26$ aluminum, insulated with a cross-linked polyethylene meeting the requirements of ANSI/ICEA S-81-570. Neutrals are triple yellow extruded stripe. Cables with "YES" neutrals have sequential footage markers. Conductors are durably surface printed for identification.
