

SIMpull MC[™] THHN/THWN

SIMpull MC[™] THHN/THWN Circuit Size Copper Conductor

| | SPEC | TITLE |
|---|-------|---|
|  | 60001 | SIMpull MC [™] THHN/THWN Circuit Size Copper Conductor 120/208V Colors |
|  | 60007 | SIMpull MC [™] THHN/THWN Circuit Size Copper Conductor 277/480V Colors |

FEATURES

- Suitable for use in branch and service power distribution in commercial, industrial, institutional, and multi-residential buildings
- Can be installed in cable tray and approved raceways
- Binder tape with print legend wrapped around assembly
- Inner conductors Type THHN/THWN rated 90°C Dry
- Anti-Short bushing not required

BENEFITS

- Saves time and labor with potential for less scrap on the jobsite
- Re-engineered aluminum-interlocked-armor sheath prevents the armor from getting jammed during pulling, which reduces labor and boosts efficiency
- Designed by ISO-Certified Cofer Technology Center
- More compact than the standard MC design which reduces usage of packaging material and can save cost on shipping, transportation, and installation time
