

Romex® BOXJaw™ WIRE STRIPPER

Southwire's NEW patent pending Romex® BOXJaw™ Wire Stripper is designed to safely strip wire faster and more efficiently than traditional wire strippers. Its 90° angled head allows for stripping wire flush against electrical boxes and is a safer alternative to stripping in hard to reach spaces with a knife or standard wire stripper. The BOXJaw™ provides labor savings with its shearing, cutting, looping, and wire stripping functions all combined into one tool!

100% MADE IN USA WITH PATENT PENDING DESIGN

UNIQUE DESIGN ALLOWS FOR STRAIGHT ON STRIPPING IN BOXES

STRIPS 12/2 TO 14/2 Romex® BRAND SIMpull® NM-B CABLE

DOUBLE DIPPED COMFORT GRIP HANDLES
