LOW VOLTAGE CABLE MANAGEMENT

DRIVE RINGS, NAIL-ON MOUNT GALVANIZED STEEL

APPLICATION

Drive rings are used to support communication cables and other low voltage wires. Quick nail-on drive rings with looped harness saves time and provides a very economical support in wet or dry locations. Drive rings may also be used on wood surfaces or with beam clamps that accept drive pins.

FEATURES

Smooth wire contact surface
.21" diameter mounting holes

MATERIAL/FINISH

Steel/Galvanized
