Romex® BRAND **SMARTBOX™** SHARK TOOTH™

The box that cuts its own hole. Absolutely a first of its kind, our Romex® Brand SmartBox™ Shark Tooth™ Fixture Box was designed with the electrician in mind for installing over head lighting, wall sconces and smoke detectors. A built-in hole saw creates the perfect sized hole every time, while also making it easy to center-on-center mark. A piercing drill bit located at the center of the blade allows for pinpoint accuracy, requiring very little measuring and marking up the wall. Raised mounting rings with center hole are located inside the back wall of the box for surface mount installations, basement or attic studs.

NOTE: Not for use on lath and plaster walls

A PERFECT CUT EVERY TIME
