MEET THE BRAINS BEHIND ROMEX® BRAND SMARTBOX™ DEVICE BOXES

Very early in his electrical career, Greg found a need for driving two screws through the mounting side wall of a nonmetallic box. When he showed his fellow electricians what he was doing they told him that they were doing the same thing. Greg asked some of the major box manufacturers if they would make a box with interior mounting. None were interested. So he made it himself! The Romex® Brand SmartBox™ Shark Tooth™ Fixture Box is his latest invention, an innovation that will help you work smarter.
