

BENDdolly™ Bending Platform FAQ's

EMT BENDdolly™

Are my EMT and Rigid BENDdolly™ heads interchangeable?

All BENDdolly™ products are built on a common cart platform, and will accept any Southwire™ bending head.

Will my EMT BENDdolly™ bend rigid conduit?

EMT BENDdolly™ shoes are not designed to withstand the additional breaking strength required for rigid conduit. Southwire™ does offer a full suite of Rigid bending products.

Rigid BENDdolly™

Are my EMT and Rigid BENDdolly™ heads interchangeable?

All BENDdolly™ products are built on a common cart platform, and will accept any Southwire™ bending head.

Will my Rigid BENDdolly™ Stainless Steel conduit?

Rigid BENDdolly™ shoes are not designed to withstand the additional breaking strength required for stainless steel rigid conduit on a regular basis. This BENDdolly™ can be used, however, occasionally to bend stainless Steel rigid conduit.

Will my Rigid BENDdolly™ bend PVC coated conduit?

While it can bend some PVC coated rigid conduit, up to 1 inch, it may not produce the highest quality of bend.
