

Southwire™

SURGE GUARD*

APP USER GUIDE

1 Download the Surge Guard* app on your Apple or Android phone by scanning the QR code below or searching Surge Guard* in the App Store or Google Play Store.

5 The app will prompt for a pairing code. Enter the code that is displayed on your Surge Guard* device.

2 Plug the Surge Guard* into shore power.

6 Name your device and press done.

3 Open the Surge Guard* app and click on search for device.

NOTE: Phones Bluetooth must be enabled in order to pair a device.

7 Your Surge Guard* is paired. Use the Surge Guard* app to monitor your power.

4 Follow the onboarding instructions in the app. The app will automatically search for available Surge Guard* devices. Once found, select your device.
