CABLE SUPPORT SYSTEMS

MULTI-RUN OVERHEAD MOUNT J-HOOKS

APPLICATION

Overhead mount multi-run J-Hook cable supports can be attached to a wide variety of overhead surfaces. Southwire J-Hooks are an inexpensive alternative to cable trays. J-Hooks provide support to sensitive voice and data cables without causing stress.

FEATURES

J-Hooks eliminate the problem of point loads that can cause band width damage to sensitive cables such as fiber optic, CAT 5E, 6, 7 or many others. Continuous wide base radius design supports the natural bends and curves of cable.

Built-in cable retainer bar
 .26" diameter mounting hole

MATERIAL/FINISH

Steel/Zinc plated
