

Southwire™

FAR SIDE BOX SUPPORTS

SNAP ON

FEATURES

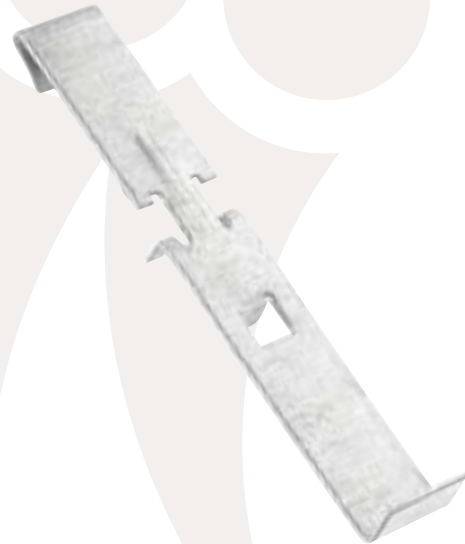

- Far side box support brackets are designed to hold boxes rigid in metal stud walls when devices are installed
- Snap-on design for easy installation

APPLICATIONS

- Far side box support brackets are used for 1-1/2" and 2-1/8" deep 4" and 4-11/16" deep boxes
- Supports are also used to keep boxes from twisting back into wall cavities during drywall construction

STANDARD MATERIAL

- Galvanized steel
