

# Southwire™

## DRAFTSEAL™

Look for the green seal! According to energy.gov “The potential energy savings from reducing drafts in a home may range from 5% to 30% per year.” Past methods include messy caulk or expensive boxes. Southwire’s DraftSeal™ Box Accessory is a simple, cost-effective way to achieve the same results! Simply snap it onto a standard nonmetallic box, and attach the enclosed seal on the back. The green ring remains visible after dry wall install. Our fast, easy method complies with the IECC building code requirements for thermal performance and air leakage, reducing drafts coming in through outlets, vapors that cause mold inside walls, and sound transmission through walls.

**WORKS WITH MOST STANDARD  
NONMETALLIC BOXES,  
INCLUDING SHALLOW AND  
DEEP VARIATIONS**

**GREEN RING IS IDENTIFIABLE  
AFTER DRY WALL INSTALL**

**ELIMINATES THE NEED FOR  
CAULKING AND SEALANTS**

**COMPLIES WITH IECC AND  
LEED ENVELOPE SEALING**
