POP-UP, DROP-IN FLOOR BOX & COVER KIT

Floor Box Kits are used to provide a place for electrical power in a floor. These boxes can be installed in carpet, tile, or wood floors. These kits are great for use in conjunction with electric furniture (like heated recliners or power-assisted lift chairs), countertops, office furniture, laboratory tables, etc., or anywhere AC power is needed.

POP-UP COVER DESIGN RETRACTS WHEN NOT IN USE

SIMPLE DROP-IN FLOOR DESIGN WITH ADJUSTABLE BOX
