Southwire™

STUD/DRYWALL

BOX SUPPORT SYSTEMS

BOX SUPPORT BRACKETS

FOR USE WITH SNAP-IN UNIVERSAL BOX POSITIONING BRACKET SYSTEM

FEATURES

- Heavy duty snap-in box support brackets for use with Southwire Snap-In Universal Box Positioning Bracket system, or for direct to stud mounting
- Quick snap-in installation allows for easy adjustable box positioning in any position along box positioning bracket
- Optional bend down far side support for direct to stud mounting additional support (BSB45BS, BSB45BFMS)
- Fold down box retention tab holds boxes in place while mounting to box support brackets
- Anti-rattle wall support tabs fold forward to a 90° position, supporting drywall installations
- Boxes can be added or removed without detaching the adjustable positioning bracket from the studs
- Box support brackets can be securely snapped in in any position along the fully extended bracket

APPLICATION

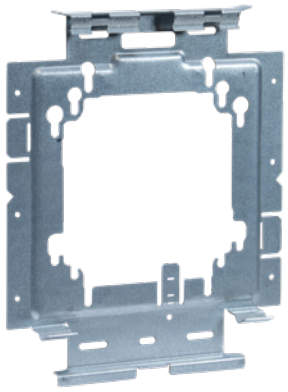

- Position multiple electrical boxes between various stud distances with box support brackets (16"-24" stud distances)
- Ideal for prefab job applications
- Box support brackets not intended for use with dynamic fan support, or heavy fixtures and luminaires
- Patented

STANDARD MATERIAL

- Galvanized steel

CERTIFICATIONS

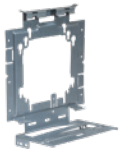

- UL
